SKILLS

- Technical Skills
- Programming: JavaScript, PHP
- Web Development: HTML, CSS, React, Node.js
- Embedded Systems: Arduino, ESP32, Proteus Simulation
- Database: MySQL, phpMyAdmin
- Tools: Git/GitHub, VS Code, XAMPP, Bootstrap 5, Node.js, Arduino IDE

PROFILE

Motivated **Software Engineer and Full Stack Developer** with hands-on experience in designing and developing scalable web applications using modern technologies.

Strong foundation in **Software Engineering principles**, including **SDLC, OOP, Data Structures & Algorithms, Design Patterns, and Agile methodologies**.

Skilled in building secure, high-performance applications with clean, maintainable code and efficient database design.

Passionate about continuous learning, problem-solving, and collaborating with teams to deliver reliable software solutions.

WORK EXPERIENCE

- **Intern – Embedded Systems**
 - Trained on IoT projects, Arduino coding, breadboard design.
- **Web Developer**
 - Created responsive websites for small businesses using HTML, CSS, and JavaScript.
 - I worked at Highspeed for 3 years and at Aqua International for a year and a half.
 - I dealt with a retail electronics store at Most Electronics.
 - I am currently working as an instructor at MSC, teaching frontend development (both offline and online).

PROJECTS

- Smart Greenhouse System
- Designed an Arduino-based system with sensors (DHT11, soil moisture, water level).
- Automated irrigation and ventilation.
- Implemented plant database (76 species).
 - Travel Website (React + Vite)
- Built a responsive travel booking website with multiple pages. • Integrated form validation and error handling.
- Plant Monitoring Web App
- Developed a PHP + ESP32-based application to display real-time data. • Recommended suitable plants based on environment.

LANGUAGES

- **ENGLISH(GOOD)**

EDUCATION

- **Bachelor of Software Engineering – New Cairo Technological University (NCTU)**
- **3rd Year, Software Department (2022 – Present)**
- **Studying under the Pearson International System.**
- **Completed the first two years with a "Good" grade.**
